SUMMARY

Cloud & Security-focused IT Specialist with hands-on experience administering Microsoft 365 and Azure Entra ID in a hybrid environment. Strong background in endpoint security, identity and access management, and threat investigation using Microsoft Defender. Experienced in Intune-based device management, MFA enforcement, and cloud security operations, with a growing focus on automation and DevOps-aligned practices.

EDUCATION

Seneca Polytechnic (Newnham Campus)

Computer Engineering Technology (ECT), Advanced Diploma

North York, ON

May 2022 - April 2025

TECHNICAL SKILLS

- **Operating Systems:**
Windows 7/10/11, macOS, iOS, Android, Linux (basic).
- **ITSM & CRM Platforms:**
ServiceNow (ticketing & incident management), Salesforce (case management)
- **Productivity & Business Applications:**
Microsoft 365 (Word, Excel, Outlook, Teams), OneDrive (backup & recovery), SharePoint, SAP.
- **Service & Account Management:**
ServiceNow (ITSM), Active Directory (AD), Azure AD, Okta, ITIL practices (incident, change, config management).
- **Networking & Security:**
DNS, DHCP, TCP/IP, VPN, LAN/WAN troubleshooting, wireless access points, basic cybersecurity concepts.
- **Hardware & Deployment:**
Desktop/laptop imaging, corporate laptop builds, reimaging, peripheral setup (printers, network devices), hardware diagnostics (warranty/non-warranty repairs).
- **Cloud & Device Management:**
Mobile Device Management (MDM), cloud-based applications, BYOD environments.
- **Tools & Utilities:**
VMware Virtual Machines, Remote access tools, Chrome OS, iPads, smartphones, virtualization tools, file and device drivers.

WORK EXPERIENCE

Esri Canada

Toronto, ON

Service Desk Analyst - Level 1 & Level 2 (co-op)

September 2023 - April 2024 (8 months)

- Provided **tier 1 & 2 IT support** across various hardware and software platforms, ensuring alignment with **ITIL practices**.
- Managed and resolved incidents involving cloud technologies, network configurations and multi-factor authentication (MFA) solutions such as **Google Authenticator, Okta, and Microsoft Authentication**.
- Consulted **user guides, technical manuals**, and other documents to research and implement solutions.
- Provided specialized technical assistance for software related incidents or service requests such as **Microsoft, GSuite, operating systems, desktop and mobile device applications**.
- Provide specialized technical assistance for hardware related incidents or service requests for supported computer devices, peripherals such as **printers, scanners, whiteboards, office phones, etc.**
- **Created and managed user accounts in Active Directory (AD)** and performed access control based on company policies.
- Provided comprehensive **IT orientations** to all new hires, ensuring a smooth onboarding process.

- Successfully managed corporate **laptop builds, reimaging, and deployment processes**, ensuring seamless functionality along with corporate **mobile devices using MDM software**.
- Conducted **hardware asset tagging** and managed records through **SAP**, resulting in streamlined inventory tracking and management.
- Collaborated seamlessly with cross-functional IT team members, according to guidelines for efficient workflow.
- **Worked closely with Dell** for multiple **part replacements**, ensuring efficient and effective resolution of hardware issues through collaboration with external vendors.

Seneca Polytechnic

North York, ON

ITS Student Lab Monitor & Hyflex Ambassador

August 2024 - February 2025 (6 months)

- Proactively monitored **computer labs and HyFlex classrooms** to ensure operational readiness for classes.
- Resolved technical issues with **computers (AIO's), crestron touchpanels, AV gear, projectors, screens**, etc.
- Assisted faculty with resolving technical issues during classes, ensuring minimal disruption.
- Conducted basic **technical demonstrations** of HyFlex technology for faculty unfamiliar with the system.
- Monitored and responded to IT service requests **via email and ServiceNow**, escalating complex issues to senior technicians.
- **Managed inventory for IT equipment**, ensuring accurate tracking and availability.
- **Reimaged and deployed laptops** for professors and students during the **hardware sale**.
- **Installed and configured computers** in classrooms, **reimaged** classroom computers, and teacher podiums to meet institutional standards.

The Plus Group

Vaughan, ON

IT Specialist – Cloud & Security

June 2025 - Present

- Managed tickets from users through **Atera** and other ITSM tools, demonstrating a keen understanding of ticket prioritization and knowing when to escalate for timely resolution.
- Provide **Tier 2–3** technical support in a **hybrid Microsoft 365 environment**, supporting end users across Windows endpoints, cloud services, and identity platforms.
- Administer Microsoft Entra ID (Azure AD) including user provisioning, group management, role assignments, and Conditional Access policy enforcement.
- Manage Microsoft 365 services (Exchange Online, Teams, SharePoint, OneDrive), including mailbox issues, permissions, licensing, and service troubleshooting.
- Deploy, configure, and manage endpoints using Intune and Atera, including device onboarding, configuration profiles, compliance policies, and update management.
- Configure and monitor Microsoft Defender for Endpoint, investigating security alerts, performing threat analysis, and remediating compromised or non-compliant devices.
- Support and enforce MFA across the organization; perform MFA resets, troubleshoot authentication failures, and review sign-in risk events.
- Investigate and respond to phishing, spoofing, and suspicious email activity, including message tracing, user education, and remediation actions.
- Perform endpoint hardening and security baseline enforcement to align with organizational security standards.
- Troubleshoot VPN connectivity issues, network access problems, and identity-related sign-in failures in hybrid environments.
- Conduct stale user and device cleanup in Entra ID and Intune to maintain tenant hygiene and reduce security risk.
- Collaborate closely with the CTO on implementing IT policies, security controls, and operational improvements.
- Maintain accurate documentation for configurations, procedures, and incident resolution to support audit readiness and knowledge sharing.
-

SOFT SKILLS

-
- Clear communicator able to explain technical concepts to non-technical users.
 - Strong written, verbal, and interpersonal communication skills.
 - Customer-focused with a professional and service-oriented approach.
 - Organized, dependable, and detail-oriented with strong documentation habits.

- Effective time management; able to prioritize tasks under pressure and meet deadlines.
- Agile learner with the ability to quickly adapt to new tools and environments.
- Collaborative team player with the ability to work independently.
- Takes initiative and ownership in problem resolution and process improvement.
- Security-conscious and attentive to data privacy when handling user systems.
- Excellent analytical, reasoning, and conflict resolution skills.

CERTIFICATIONS

- **Security+** certification – (May 2025)
- **ISC2 CC** Certification – (October 2024)
- Microsoft Certified: **Azure Fundamentals (AZ-900)** – (May 2025)
- CISCO Introduction to Cyber Security – (June 2023)
- Career Essentials in Cybersecurity by Microsoft and LinkedIn – (January 2024)
- Meta CTF - Flash CTF – (October 2024)
